Dear Parent

RE: Go4Schools App - Registration

It is very important to us at GNSA, that we work together with you to support your child's learning. To help us do that, this letter will outline how to use our online assessment system, 'Go4Schools.' Go4Schools enables parents and students to access all assessment information, including target and GEM task grades. It is also where you will receive the termly school academic reports for your son/daughter.

In order to log into Go4Schools, you need to visit www.go4schools.com and click on the 'Login' icon in the top right-hand side (select parent login). Enter your email address into the 'First-time User' section and click 'send me a password'. **This must be the email address that you have registered with the school.**

Email address:	<input type="text"/>
Password:	<input type="password"/>
<input type="checkbox"/> Remember my email address	
<input type="button" value="Sign in"/>	

[First-time User?](#)
[Forgotten your Password?](#)

Go4Schools will then send you a password directly to the inbox of your registered email address. Upon receipt of the password, enter your email and new password into the top two boxes of the login page to gain access to the system. To register a new email address, or if you experience problems logging in, please contact the school office or email admin@gnsa.co.uk.

Progress and Targets

Go4Schools tracks the current performance of a student and compares it to their end of key stage target grade. As the targets represent the standard we want students to reach or exceed by the end of the key stage, it is to be expected that they will start the year below that standard. Over time we expect students to move closer to their target.

GO 4 Schools: Current model	
Above target	2
On target	4
Below target	1
Well below target	0

Subject Assessments

Go4Schools enables you to track the grades achieved in each module and assessment in addition to the overall grade the student is currently working at.

Compact view (main grades only)
 Broad view (all grades)
 Detailed (main grades plus marksheet grades)

Subject	Year 7 Baseline Grade	External target	Teacher Target	Target	Current	Residual	Mock Grade	Sheet summary
Biology sample 1, H HASELDEN	-	5	5	5	6	Above target	6	Progress Checks 6 Mock 5- Working Scientifically 6 Subject content 6-

The “**current**” column gives the current standard of a student’s work in the subject, based on all completed assessments to date. This grade becomes more reliable as more assessments are completed and should be treated with a little caution at the start of the year. The current grade column is colour coded based on how the current grade compares to the student’s “**target**” grade, in the same way as shown in the bar chart above.

Reports

Published reports are displayed as icons that can be used to open the PDF report to view the details. The attainment table gives an overview of progress across subjects for each report in the academic year. Previous report grades can be viewed on this page with a thumbnail graph for each subject to show if progress is improving, key attendance data is also visible for each report published.

Mobile App

The Go4Schools mobile app is also available to download from the app store and can be used once the account has been set up as shown above. Please note that reports cannot be accessed through the app. To access termly reports, please log into Go4Schools on a desktop computer or through your web browser on your mobile device.

We hope that, as the assessment information grows throughout the year, you will find Go4Schools helpful and informative. If you have any questions about the system, please do not hesitate to contact the school.

Yours faithfully

Mrs D Soneji - Vice Principal
